Gently cleanses...

Stratum C Gentle Cleanser uses sensitive ingredients and is suitable for all skin types

Collagen boosting...

Natural vitamins help improve collagen synthesis

Natural Ingredients...

Seaweed Extract and Rose Hip Seed Oil are full of powerful antioxidants and Vitamins A and E to replenish those lost during menopause

Stratum C Menopause Skin Gentle Cleanser was designed exclusively for menopausal skin to combine excellent cleansing properties with gentle ingredients that will rejuvenate and improve your skin's tone and elasticity.

During the menopause, skin loses collagen and becomes thinner and more sensitive. It also loses key nutrients and vitamins which leave it exposed to sun damage and wrinkles.

Rose Hip seed oil used in Stratum C is a rich source of vitamins A, C and E which are all naturally lost during menopause and is known to boost collagen production. We also use the Irish Moss Seaweed extract that is used in our Stratum C Menopause Repair Serum to add intense hydration to the cleanser.

A non-greasy, super light gel the cleanser foams easily to remove dirt and skin impurities. It can be lathered onto a facial cloth to remove most make-up. All the time it

helps to gently nourish the skin and deliver collagen boosting vitamins.

Use morning and evening to clean all skin types including oily and problematic. Use a warm face cloth to open the pores, lather the gel using your finger tips and massage over the skin in small circular motions. Remove using damp, warm cloth. It is ideally used with Stratum C Menopause Skin Calming Toner, before Stratum C Menopause Protect and Repair for the ultimate in skin care regime.

Ingredients:

Purified Water, Sodium Oliviate, Glycerin, Rose Hip Seed Oil, Eriobotrya, Japonica Extract, Irish Moss Seaweed Extract.

Rose Hip Seed Oil is used as a base ingredient in Stratum C Gentle Cleanser
